

RLS-375

Transportable Equipment Readiness Locker System

Readiness lockers are pre-assembled, modular, re-locatable, efficient deployable solutions for storage and organization of life support equipment.

Example equipment to be stored:

- Compressors
- Vision Enhancing Equipment
- Communication Equipment
- Lifesaving Equipment.

- Packaged for easy storage, shipping and set up
- System and accessories package can be modified to meet any unit's specific mission requirements
