ABOUT US

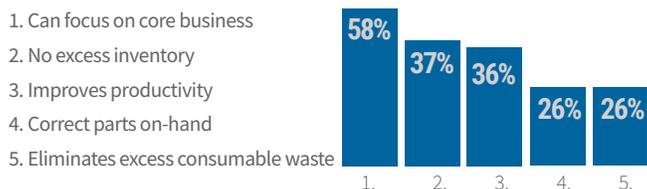

VSS is an SDVOSB, HUBZone, AS9120 & ISO 9001:2015 quality certified integrated logistics company with \$200M+ in secured government contracts and over 120 employees worldwide.

STRATEGIC SOURCING/MRO PROCUREMENT

There's a huge mismatch between the price tag on MRO products and their actual cost. The associated expense of time spent on the procurement and processes can negatively—and quickly—impact your bottom line.

Let our team of dedicated, resourceful and experienced strategic sourcing representatives serve as your own procurement experts, to save time and money. Through our network of suppliers, we'll navigate the supply chain and meet your toughest acquisition requirements with **speed, accuracy** and **clear communication** throughout the entire process, all at the **most competitive price** possible.

VISN 16 — Jackson, MS
VISN 17 — Dallas, TX
VISN 23 — Minneapolis, MN
USACE — Vicksburg, MS

PRIME CONTRACTORS:

- Lockheed Martin
- InDyne
- Amentum
- M1

VENDOR MANAGED INVENTORY SOLUTIONS

Our team can monitor and maintain specified inventory levels and designated stocking points on selected items to ensure maximum efficiency within a specified budget.

THIRD PARTY LOGISTICS (3PL)/ INDUSTRIAL PRODUCT-SUPPORT VENDOR (IPV)

Through our 3PL/IPV services, VSS can offer cost-effective solutions for the entire logistics, support, inventory management and warehouse services workforce, helping you optimize your budget and allocate resources efficiently.

TOOLING & SPECIALIZED KITTING SERVICES

VSS goes beyond supplying quality tools by offering value-added services like kitting—including unique, customized tool kits for a series of U.S. government customers—FOD prevention and engraving to complement our extensive product line. All products are brought into our warehouse, inventoried, inspected, kitted and prepared for shipment.

FACILITY MAINTENANCE SUPPORT

We maintain partnerships with trade professionals across the U.S. and can act as a supervisory and scheduling intermediary to streamline service. Save time and money by leveraging our vendor support to alleviate challenges engineering teams report such as staffing and hiring, technology adoption, and streamlining processes.
